

UBT Song (to the tune of Hotel California)

In a messed-up department  
Problems everywhere  
SHARE members could fix things  
But our Idea Board is bare.

Management agrees with us  
But we don't know the way  
Will Erickson showed up  
Thought I heard him say...

"Welcome to this Process Improvement program  
We call them UBTs  
They'll get you what you need

Structured with co-leads AND co-SPONSors  
Members INVEST some time  
And get your work Streamlined!"

Will then put up his Pick chart  
He's got the RED CardiGAN -uh  
What's the Biggest issue here  
that deserves attenTION

Then we worked Together  
Chose some projects of worth  
Followed all of the next Steps  
AND we're proud of our work
